Message #	Line Item/s	Message
902	1,5	<div> You have selected a jamb depth of 3-1/16". The side jamb cover, head jamb cover, and sill cover will extend approximately 1/8" beyond the frame depth toward the inside of the home. Generally, jamb extension or drywall return would be situated against this lip. If your application is not using extensions or returns, a lip will be present unless trimmed properly. Please reference section drawings on weathershield.com for details.</div>
